

JAMES FIRTH FAMILY

Send updates to Shaun Hubbard at shaunalice@comcast.net

July 6, 2007

Dear Shawn,

I was working outside today and my phone rang and you will never believe who it was. It was Della Clemenson's grandson Scott. He lives in Albany, Oregon. I cleaned myself up a bit and ran down and picked he and his wife and children up and took them out to the old Firth Place. He did not have very much time, so we made every minute count. I gave him the name of our site, so he could go in and read all about us and see our pictures. He said he would send me all the details about his family so we can get them on. He said Cecilia and Murrriel both live SanDeigo. He also said that Jim Firth Clemenson lives in Black Diamond. So I will be anxious to get all the information so we can have them on the site. I told him that you and I had really talked about them and tried real hard to get the information. It was just luck that I had come in the house to go to the bathroom.

Will let you know when I get the information. How are you and Harold doing?

I was gone for over a week down the Oregon Coast and of course I just loved it. The weather was wonderful and the beaches were just great. I always say that is God's country. Take care and will be in touch with you soon. Love U, Marlene(Crosby)

They were on their boat "Della Jane".
